Yikes! I'm not sure who changed it (but I could guess). I was told that when we submitted these through our app that they would be compiled and sent to supervisors for review before being sent out. That hasn't happened yet. I have not seen any before they are issued. I think someone was trying to write a more descriptive title (I don't think there is anything wrong with yours) and mistakingly wrote PCE instead of PCB.

Hi Dominic

I'm not sure who creates the titles for these salients, but what I submitted was "Update on Site Activities at Shiloh Church Road". An unknown person changed it to "*EPA disposes PCE contaminated soil and more at Shiloh Church Rd. Removal Action.*" This is completely false and I have no idea why anyone would even write this.

Not trying to make a mountain out of a mole hill here, but this is why I am discouraged from writing salients

FYI only. No action needed on your part (I don't think)

Thanks

Chris

Nonresponsive based on revised scope

EPA disposes PCE contaminated soils and more at Shiloh Church Rd removal action- The Shiloh Church Road Site consists of three properties containing hazardous waste from salvage operations in the area. Under the ongoing removal action, EPA has disposed of soil contaminated with PCBs, RCRA waste, and mixed waste. Radiation debris operations were completed this month with final disposal of over 600 items of radiation debris. EPA is awaiting final post-excavation results to complete work on Property #2 (**C. Wagner 804-337-3049**)
